Link broken. libharu.org – TernaryTopiary May 8, 2017 at 6:37

1 Also: "At this moment libHaru does not support reading and editing existing PDF files and it's unlikely this support will ever appear." Is this actually relevant? – TernaryTopiary May 8, 2017 at 6:38 ✎

Have a look at [Docotic.Pdf library](#). It does not require you to make source code of your application open (like iTextSharp with viral AGPL 3 license, for example).

0

Docotic.Pdf can be used to read PDF files and extract text with or without formatting. Please have a look at the article that shows [how to extract text from PDFs](#).

Disclaimer: I work for Bit Miracle, vendor of the library.
